Web Development with Node.js and MongoDB

Andrew Marcinkevičius

Video 3.2

In this Video, we are going to take a look at...

- What is MVC
- MVC components interaction
- MVC in Express.js

Model-View-Controller

- MVC an architectural pattern
- Separates responsibilities
- Model
- View
- Controller

MVC

- Fat models, thin controllers
- Reduce complexity
- Develop faster and better
- Most web frameworks => request-response frameworks

Views

- Different representations for data
- Web page --> <html>...</html>
- RESTful API --> {"user": ...}
